## LOCAL FRUIT HOUSES FACE U. S. CHARGE

Gamble-Robinson Co. and Nash Bros. Plead Not Guilty to Restraint of Trade

### ACCUSATIONS MADE BY CAPITAL CITY HOUSE

Socialist to Be Tried Here on Charge of Sedition—34 True Bills Found

Fargo, N. D., Aug. 1.—The federal grand jury, which has been in session here for over two weeks, will probably complete its work today, according to an announcement here, after returning nearly 60 indictments, some of them the most important ever handed down by a federal grand jury in North Dakota.

The anti-trust suit, in which it is alleged that the Gamble-Robinson and Nash Bros., wholesale fruit concerns, with branches in nearly all parts of the northwest, control the fruit prices of the northwest, is being watched with great interest, and it is believed many interesting developments will be brought up in the trial, which will occur at the next term of the federal court in Bismarck next fall.

The grand jury today indicted William Behrbaum of New Salem on a charge of embezzlement.

Indictments charging violations of the anti-trust laws and alleging combinations in restraint of trade were found by the federal grand jury at Fargo late yesterday afternoon against the Gamble-Robinson Co. and Nash Bros. of Grand Forks, both of which are engaged in the fruit and general produce business in this city. The indictments are said to have been found on complaints made and evidence furnished by rival commission houses in this city. Former Attorney General Henry J. Linde, representing the defendants, was in Fargo when the true bills were returned, and he immediately entered pleas of "not guilty" in behalf of the Gamble-Robinson Co., which has retained him for its defense. Similar pleas have been entered in behalf of Nash Bros. by Grand Forks attorneys representing that concern.

Complaint on Old One. The complaint upon which the federal grand jury acted is an old one, having been preferred about three years ago by R. Murray of the Bismarck commission house of Murray & McLean. The direct charge is conspiracy in restraint of trade. Gamble & Robinson have about 36 houses in the northwest, including branches at Grand Forks, Fargo, Valley City, Jamestown, Bismarck, Minot and Williston, while Nash Bros. have 90 houses, their Bismarck branch being the Stacy-Bismarck Co.

Henry J. Linde, counsel for Gamble-Robinson Co., stated this morning that while on its face the proof against the companies looks serious, any agreements into which the concerns entered can easily be explained and justified. The suits will be the first brought in this section of the northwest under the Sherman anti-trust act, and they promise to be the most interesting and most important actions ever tried in the Bismarck district federal court, where they are expected to come up at a special term in December.

To Be Tried Here. Mrs. Kate Richards O'Hare, of St. Louis, indicted by the federal grand jury at Fargo for seditious utterances and an effort to restrict recruiting, must appear before the federal district court in Bismarck, probably at the October term, the possibility not until some time in 1918, in answer to a charge of violating the act of congress of June 15, 1917.

Mrs. O'Hare denies having made statements attributed to her in her address at Bowman and elsewhere. "I have made this lecture 75 times, and this is the first time its propriety ever has been questioned," she stated in Fargo.

Mrs. O'Hare is editor of the Social Revolution, a socialistic sheet published at St. Louis, and is generally known for her radical views on socialism. She was arrested last Saturday at Devils Lake on a bench warrant issued by the federal district court after her indictment by the federal grand jury.

She pleaded not guilty. Dr. E. C. Stuckes has interested himself in the woman's behalf and is making arrangements to procure the \$1000 bonds required to liberate her.

It was Mrs. Lillian Totten's associations with Mrs. O'Hare which led to Senator McCumber's charges against the latter in the United States senate. Evidence against Mrs. Totten, a postmistress at Bowman, was offered the grand jury at Fargo, but it is understood that no indictment was found against her.

## MOB TAKES FRANK LITTLE TO RAILROAD TRESTLE HANGING HIM FOR INSULTING SOLDIERS IN REMARK

"Scabs for Uncle Sam" Was the Insulting Remark Agitator Used in Speaking of the Boys in Khaki—Masked Citizens Make Quick Work of Victim

Butte, July 31.—Frank Little, member of the executive board of the I. W. W. and prominent in labor troubles in Arizona, was taken from a lodging house early today by masked men and hanged to a railroad trestle on the outskirts of the city.

The body was cut down by the Chief of Police, who identified it. Little in a recent speech here referred to troops as "Uncle Sam's scabs." Since his arrival in Butte recently from Globe, Ariz., Little has made several speeches in which he attacked the government and urged the men to shut down the mines of the Butte district. His record was under investigation by federal authorities. On the other hand, it was reported that Little was employed by a detective agency and was the victim of the radical element, of which he appeared to be a member. He took a prominent part in labor troubles in Arizona. He is understood to have the confidence of William D. Haywood, secretary of the I. W. W., and was regarded here as one of Haywood's confidential agents. Little was a cripple but was active and a forceful speaker. On his body was a card bearing the words: "First and last warning. Others take warning. Vigilantes." Little was taken out of the building in which he roomed by a party of masked men, who took him away in an automobile. He was not given time to dress.

## SENATE FIXES NEW LEVIES FOR WAR TAX

Much of Additional Revenue Needed to Come From Excess Profits

### CORPORATION INCOMES TO YIELD \$162,000,000

Washington, Aug. 1.—The following new levies were definitely decided upon today:

On corporation incomes \$162,000,000.  
Income of individuals of \$10,000 and more, \$27,600,000.  
Distilled spirits \$30,000,000.  
Malt and fermented liquors (beer) \$25,000,000.

These new taxes total \$204,600,000. The committee considered the following further revisions in providing for the remaining \$23,400,000 necessary to attain the minimum of \$1,938,000,000.

Increase of taxes on brandy for fortifying wines to yield about \$10,000,000.  
Increase of rates on wines to yield about \$2,000,000.  
Increase of consumption, or excise taxes on sugar, coffee and possibly tea, together with a few new taxes, possibly to include gasoline and firearms.

Reduction of the 15 per cent tax in the so-called Jones amendment, on corporate undivided surplus to ten or five per cent.

Although the committee had originally planned to secure much of the additional revenue from war excess profits taxes, committee sentiment today was said to be strongly against increasing the pending schedules, estimated to raise \$523,000,000 more than under the present law, or a total of \$748,000,000.

Corporation Incomes. To secure \$162,000,000 more from incomes of corporations, joint stock companies and associations, including insurance companies, the committee decided to increase the normal rate on such incomes by 2 per cent, trebling their present rate and doubling the rate provided in the bill.

Modification of the Jones amendment was virtually agreed to with the extra change to be decided later. The new surtax rates on individual incomes of \$15,000 and above remain to be definitely fixed.

The graduated surtaxes in the pending bill run from 5 per cent on \$15,000 incomes up to 33 per cent. The new rates probably will graduate from 5 to 35 per cent. With this increase the total income tax returns to the government would be \$1,052,000,000, of which \$719,700,000 would be the war levy, against \$532,700,000 proposed in the house bill.

The committee decided to add a tax of \$1 per gallon more on distilled spirits and 50 cents more per barrel on malt and fermented liquors. These taxes would provide a total increase of \$210 per gallon on distilled spirits, which now pays \$110, and of \$175 per barrel on beer, now paying \$150.

## M'CUMBER FOR DRAFTING OF ALIENS NOW

Calls Up Resolution Authorizing Negotiations With the Allies on Issue

### PREDICTS TROUBLE IF CLASS IS EXEMPTED

Washington, D. C., Aug. 1.—M'Cumber of reaching aliens under the draft were debated briefly in the senate yesterday, but the discussion got nowhere. When Senator M'Cumber called up his resolution authorizing negotiations with the allies to legalize drafting of their nationals, Senator Chamberlain sought unsuccessfully to attach a provision for proceeding with alien drafting at once, insisting that "if something is not done we are going to have trouble between the American youths and aliens."

Senator Stone and Lodge read precedents to show congress could not legally draft aliens without special negotiations. Senator Cummings concurred in part with that view, but Senator Pittman insisted such compulsion would be morally right anyway, and Senator Lewis said he considered it clear that the aliens should be compelled to fight here or at home. The debate was ended for the time being by previous agreement, but Senator Stone gave notice he would call up the M'Cumber resolution again soon.

## OFFENSIVE IN FIRST STAGES GREAT SUCCESS

Capture First Three Lines of German Trenches Early in Struggle

### CASUALTIES OF ENTENTE REPORTED AS VERY LIGHT

Teutons Show Little Resistance As Big Drive Commences

British Front in France and Belgium, Aug. 1.—At a point making offensive, launched by the British and French against the German lines between the river Yser and Boesinghe at daybreak yesterday, with few exceptions, accomplished all that had been planned for the first day of this battle, which in its early stages, gives promise of being the greatest conflict of the war.

Roughly speaking the British penetrated positions held by Crown Prince Rupprecht of Bavaria, between Boesinghe and Wameston, and at the time of the filing of this dispatch, were in possession of the first three lines of the German trenches at most points throughout this front.

Force Way Through Marshes. Reports from the French troops, which are attacking over the difficult territory between Dixmude and a point near Boesinghe, say that they have forced their way across this marsh-studded and partly inundated region and captured the first two lines of German trenches.

The casualties of the entente allies have been surprisingly light, and the morale of the men continues at the highest pitch. The contact between the British and French armies has been constant and excellent.

Heavy Counter Attack. Late today it was reported that the Germans had begun a heavy counter attack at the point where the entente allied forces join.

The German front line trenches, which had been torn to pieces by the preliminary bombardment, offered little resistance, but once the allied forces had penetrated beyond them, they met with fierce resistance at many points. Directly east of Zillebeke and again a little to the north, the British were temporarily held up by a heavy machine gun fire, but only temporarily, for the troops charged through the rain of lead and forced the Germans from their positions in hand to hand fighting.

### Youngster Loses Finger and Then His Entire Hand

New England, N. D., Aug. 1.—Austin, 11-year-old son of Mrs. C. M. Baitweber, after losing the index finger of his right hand by having it caught in the gears of a gas engine, this week lost the entire hand, when he fell from a mower which he was driving into the knives, which practically stripped him of his clothing and severed the hand at the wrist.

## WIDE STRETCH OF TERRITORY AND 3,500 PRISONERS TAKEN IN BRITISH FRENCH DRIVE ALONG BELGIAN FRONT

Haig-Petain Offensive Successful Over Entire Zone and Allies Are Now Busy Consolidating Ground Gained and Bringing Up Guns

BY ASSOCIATED PRESS. With a wide stretch of territory and more than 3,500 prisoners in their hands as the result of the first day's fighting in their new offensive, the British and French troops in Flanders spent last night consolidating their gains and repulsing German counter attacks. The new line, which along the greater part of it, stretches from two miles to two and a half miles in advance of the old line, and includes ten captured towns, has been firmly held, along the entire front. The consolidation process is being carried out under a torrential rain which is hampering further operations.

The extent of the permanent advance gained by the smashing of the German line will have to be judged by further developments. Drive to Be Resumed Soon. Development of objects were assigned the various units for attainment in the first day's stroke. These appeared to have been gained in their entirety. The logical supposition with the history of the Somme and the Arras operations in mind is that the drive will be renewed as soon as the heavy guns are moved up in pursuit of the plans of driving wedges into the German lines of successive strokes, until a point is reached when the falling back of the enemy on a wide front will be forced.

The importance to be attached to the drive into the German held territory in this sector must be gauged not only by the assault between Avocourt and Hill No. 114, northwest of the citadel, in an effort to regain the positions they lost on July 17. Only a few advance elements of the French lines, however, were reached by the Crown Prince's forces. The French fire stopped them short there.

## RUSSIA ENTERS FOURTH YEAR OF WAR CONFIDENT

No Evidence That Germans Have Been Able to Follow Up Successes

### LOOK FOR DECISIVE BLOW FOR ALLIES DURING YEAR

Petrograd, Aug. 1.—On the occasion of the third anniversary of the commencement of the war, the official newspaper of Russia says no signs are visible either of a military solution of the situation or recreation of the opponents. Summarizing the events, it says Rumania's defeat was the first undoubted proof that a victory by the allies was obtainable only by indefatigable and simultaneous operations on all the fronts.

Taken to Heart. "This lesson was taken to heart," the newspaper adds, "and considering Germany's failure in 1916 at Verdun and on the Somme, and her defeat by General Brusiloff, there seems to be excellent prospects for a decisive success in 1917. The events following the Russian revolution are the cause of the present disappointment. "The enemy has not failed to take advantage of the backwardness of the mass of the Russian soldiers and their susceptibility to incitement by agitators, the result of which was the fraternizing between the trenches and serious defeats. The cause of the entente has been saved from disaster only through the heroism and self-sacrifice of Great Britain and France."

## NO PACT WITH RUSSIA ASSERTS FRENCH PREMIER

Ribot Answer Charge of German Chancellor That Secret Treaty Exists

### ASKED NICHOLAS TO SUPPORT FRENCH CLAIM

Paris, Aug. 1.—Premier Ribot replied in the chamber to the declaration made Saturday by Dr. Michaelis, the German chancellor, that there was a secret treaty between France and Russia. He said: "The German chancellor publicly commands the French government to declare whether in a sitting June 1, the French government had not made known to the chamber of deputies the terms of a secret treaty made before the Russian revolution whereby the emperor bound himself to support French pretensions to German territory on the left bank of the Rhine. The chancellor's version contains gross irregularities and absolute lies. M. Doumergue after a conversation with the emperor, commanded and obtained M. Briand's authorization to take note of the emperor's promise to support the French claim to Alsace Lorraine and to leave France free to seek guarantees against fresh aggressions, not by annexing territories on the left bank of the Rhine, but by making autonomous states of these territories, which would protect France and also Belgium against invasion."

"We have never thought to do what Bismarck did in 1871. We deny the allegations of the chancellor who evidently knows of the letters exchanged in February, 1917, at Petrograd and falsified since by his predecessor, falsified the dispatch whenever the Russian government is willing to publish these letters, we have no objection."

"The chancellor refrained from speaking about my declaration March 21, when I repudiated in France's name any policy of conquest and annexation by force. He has willfully forgotten my language of May 22 in the chamber, saying we were ready to enter into conversation with Russia as to the object of the war."

## ELLENDALE TO TO HAVE STATION TO TEST ETHER

One of Two Plants in America Will Be Located in Dickey County

Ellendale, N. D., Aug. 1.—Ellendale has been selected as the site of one of two aerological stations located in America. A tractor tract has been purchased, and a permanent corps of six men is expected to arrive today or tomorrow to install the apparatus and assume charge of the station. Instruments ordinarily used in weather stations will be installed with the addition of apparatus for the recording of the movement of temperature humidity, density and other characteristics of the upper atmosphere. These records are procured through the medium of instruments elevated by observation kites to an altitude of five miles or more. The only station of this kind now in operation is located at Omaha.

## WELSH TROOPS STAR IN FIERCE HAIG OFFENSIVE

Attack on German Flemish Lines Presents Tremendous Difficulties

### CONTEST BETWEEN DIXMUEDE AND LIZERNE

British Bringing Up Immense Supplies of Munitions for Continued Battle

DISARM POLISH LEGIONS. Copenhagen, Aug. 1.—A dispatch from Berlin says the Polish legions have been disarmed and interned, and that vigorous measures have been taken in Poland to prevent disorder.

British Front in France and Belgium, Aug. 1.—Welsh troops yesterday added a new star to their crown, for it fell to one of their regiments to administer a crushing defeat in General Haig's offensive on the third battalion of infantry guard, which was Emperor William's crack guard.

The terrain in the present battle zone presents tremendous difficulties to the attacking forces. Between Dixmude and the point where the Ypres-Comines canal crosses the line on the lower part of the Ypres salient, two great forces have been imbedded for three years. This region has come to be looked upon as impregnable for either side.

"No Man's Land." The present battle between Dixmude and Lizerne was in "no man's land," within whose borders lay marshes and morasses which in winter months are impassable. This formidable natural barrier was rendered still stronger by the inundation of large areas by release of water from canals, below this section opposing lines followed either banks of the Yser canal and then went on the Ypres salient, face to face but with the Germans holding the dominating high land along the salient.

A New Problem. The Ypres salient itself furnishes as nasty a problem as could be presented to an attacking army. The country here is saucer shaped and the Germans held the lip of this saucer. All the lower lying lands within this dish had been dominated by the enemy, who could send a stream of shell and machine gun fire into the troops and supply columns advancing across the salient.

Built Bridges. The situation was rendered more difficult by the presence in the saucer of a large number of waterways. This was overcome by British engineers, who built 17 bridges in the face of terrific gunfire.

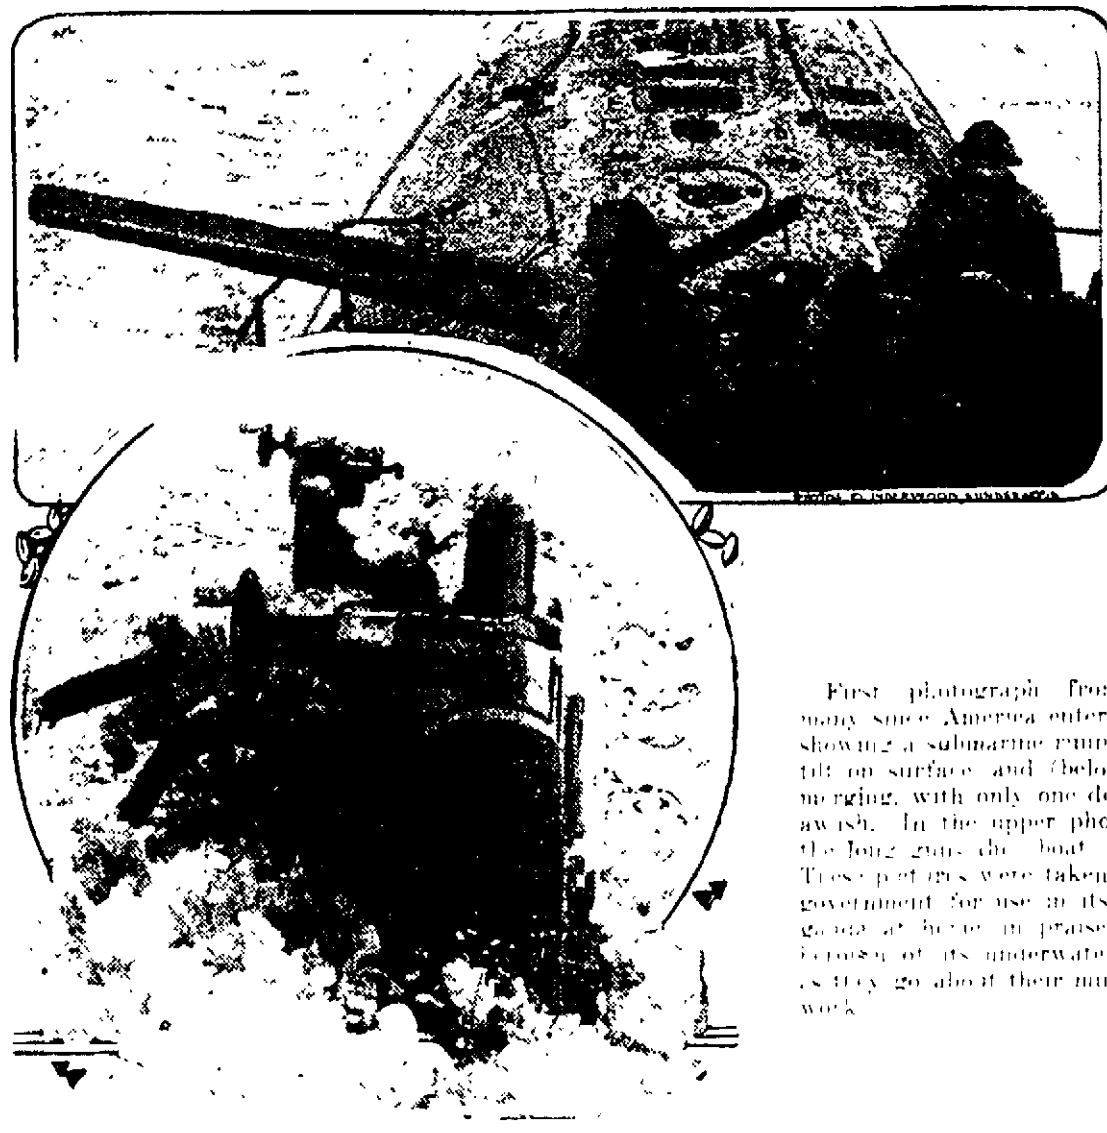

Similar and equally remarkable work was done by French engineers, who were forced to bridge the Yser. Pour in Fresh Troops. Early in June rumors of the impending attack began to find their way to German ears. Gradually the rumors assumed a certainty and the Germans began to strengthen their lines, pouring fresh forces into Flanders. The surrounding country was evacuated by civilians and stripped for a conflict. Enormous numbers of great guns were mounted on concrete bases laid long before. Millions of shells, which today are turning the German front into infernal death, were brought up, while the enemy watched with unseeing eyes. Long lines of dreaded tanks took the roads and the living monsters crawled clumsily, but persistently, northward to take their place in the allied battle line. Thoroughness of preparation is one striking characteristic of the British method, and it is safe to say that no man had not rehearsed the part he was to play in the opening stage of the great conflict.

TO CALL OUT 60,000. Athens, Greece, Aug. 1.—Withdrawal of the Allied forces from Old Greece, Thessaly, and Epirus in accordance with the decision of the Belgian conference at Paris, is being rapidly carried out. The last Franco-British troops left Epirus today.

## OFFICIAL REPORT OF SUBMINE ATTACK FILED

Washington, D. C., Aug. 1.—The detailed report of Read Admiral Gleaves respecting the submarine attack on the American transports of the first expedition to France was received today by Secretary Daniels, and forwarded to Chairman Tillman of the senate naval affairs committee. It probably will be made public later. It was said that the report is in accord with the navy announcement at that time but which since has been attacked as an exaggeration. It is understood to tell in detail how the German submarine attacked the Americans twice, but were driven off, and destroyed one German submarine and probably others.

GERMANY'S OWN PICTURES OF U-BOAT IN ACTION!

First photograph from Germany since America entered war, showing a submarine running full tilt on surface and (below) submerged, with only one deck gun awash. In the upper photo note the long gun, the boat carries. These pictures were taken by the government for use in its propaganda at home in praise of the bravery of its underwater crews as they go about their murderous work.

# WAR TO COST EACH U. S. FAMILY \$848 A YEAR

**Are You Ready With Your Share Of Uncle Sam's Staggering Expenses for First Year of Fighting.**

By BASIL M. MANLY.

Washington, D. C., Aug. 1—Have you \$848.57 for your Uncle Sam this year?

That is what he is going to need, the coming 12 months, from the average American family to pay the staggering war cost and ordinary government expenses. Some families will have to pay more in loans and taxes. Some will pay much less. Some, who pay only through indirect taxes, will not realize just what they are contributing; but—all will pay.

A compilation of the appropriations passed and pending for the fiscal year ending June 30, 1918, shows a total of \$16,971,414,291, of which about \$9,250,000,000 has been authorized by congress, and \$7,720,000,000 is still to be voted.

For each of the 20,000,000 families in America this means an average of \$848 in round figures, and for every man, woman and child an average of \$170.

What is Uncle Sam buying with these enormous sums?

The army is the biggest item, with \$2,684,381,887 already appropriated and \$5,000,000,000 more required—\$384.22 from the average American family for the army.

Next comes the cost of loans to the allies, \$3,007,000,000 already, including the cost of printing the bonds, etc., and \$2,000,000,000 more to be provided. This will amount in all to a loan from each American family of \$250.35. Of course, these loans are the debts of our allies, but the money for them must be raised.

## WHAT UNCLE SAM MUST HAVE THIS YEAR—

WHAT FOR	From the American People	Average per Family
ARMY	Passed \$2,684,381,887	\$134.22
	Pending 3,000,000,000	250.35
LOANS TO ALLIES	Passed 3,007,000,000	150.35
	Pending 2,000,000,000	100.00
MERCHANT SHIPS	Passed 1,024,825,267	50.76
	Pending 1,000,000,000	50.00
AVIATION	Passed 405,000,000	20.25
	Pending 500,000,000	25.00
DEPT'S AND MISC	Passed—Army 640,000,000	32.00
	Pending—Navy 45,000,000	2.25
POST OFFICE	Passed 516,689,000	25.83
	Pending 176,893,000	8.85
PENSIONS	Passed 331,851,170	16.59
	Pending 100,000,000	5.00
PRESIDENT'S WAR FUND	Passed 100,000,000	5.00
FOOD CONTROL	Passed 152,500,000	7.62
INTEREST ON LOANS	Passed 70,000,000	3.50
WAR RISK INSURANCE	Passed 45,000,000	2.25
TOTAL—Passed and Pending	\$16,971,414,291	\$848.57

The third item is the navy, which has had \$1,034,000,000 and asks for \$500,000,000 more—total \$361.76 per family.

Merchant ships to the amount of \$455,000,000 have already been authorized and \$500,000,000 more will be asked—\$45.25 per family.

Aviation has been voted \$640,000,000 and the navy is asking for \$45,000,000 more—a little item of \$34.25 per family.

For the expenses of congress, the executive departments and all sorts of miscellaneous items (not including the postoffice)—there has been \$516,000,000, and they are coming up soon for \$15,000,000 more, including a nice little item of \$26,893,000 river and harbor "pork"—making an aggregate of \$532.33 for the average family.

The postoffice has \$331,000,000, all of which must come out of the pockets of the nation in the form of postage—\$16.59 per family.

Pensions cost \$160,000,000—\$8 per family.

The president has a lump sum of \$100,000,000, a large part of which is understood to have been spent for ships—\$5 per family.

War risk insurance funds of \$45,000,000 have been voted—\$2.25 per family.

Finally, there is a little item of \$70,000,000 to pay the interest on the L. berry bonds already issued—\$3.50 per family—which is just a foretaste of the rapidly mounting interest charges that will have to be raised when the costs are paid with bonds.

And this may not be all; for there are strong movements for higher pay for the soldiers, more airplanes, more soldiers, and a comprehensive insurance scheme—which would make even the staggering total of \$17,000,000,000 mount like the thermometer's mercury on a hot day.

**Mother to Arrive**—Mrs. C. F. Lutz of Big Lake, Minn., is expected to arrive in the city today or tomorrow to spend a few days in Mandan a guest of her sons, L. H. and George Lutz.

**Undergoes Operation**—Edgar, 13-year-old son of Mr. and Mrs. I. S. Elder of Huff, was brought to the hospital yesterday and this morning underwent a successful operation for appendicitis.

**To Minneapolis**—Miss Jessie Hall who had been visiting with her aunt and uncle, Mr. and Mrs. Charles Kidd, left yesterday morning for Minneapolis, where she is spending several days with relatives and friends.

**At Flasher**—Miss Cain Peters is enjoying a few days with relatives and friends at Flasher. She expects to resume her duties at the capitol in Bismarck after having enjoyed an extended vacation.

**To Twin Cities**—Roy Dow and Leo Aughey went to the twin cities Saturday night and the fore part of this week left for Chicago, where they are spending a few days on a pleasure trip.

**Return Home**—Mrs. S. Amonn of Jamestown returned home Sunday morning after several days' visit with relatives. Miss Rosie Boehm, a sister of Mrs. Amonn, went to Jamestown also and will spend until Friday visiting at the Amonn home.

**Watertown Visitors**—Mrs. J. F. Krracher of Watertown, S. D., is here for a few days a guest of Mrs. A. J. Sylvester. Mrs. Krracher's daughter, Kenneth Patterson, a nephew of Mrs. Sylvester, also of Watertown, is here visiting.

**Auto to Aberdeen**—Rev. C. J. Fylling and family and Tedman Rorling and family left today in the latter's automobile for Aberdeen, S. D., and Bradley, a former charge of Rev. Fylling's. They will spend about two weeks on the tour.

**Connolly Home**—State's Attorney Connolly and family returned home Sunday. Mr. Connolly joined his family in Minneapolis, they having come from Mrs. Connolly's former home in Algoma, Wis., where they had been visiting for a number of days.

**Excavation Completed**—A. G. Olson western manager and general foreman of the Melnecke Building company of Fargo, located in this city, advised on Tuesday that excavation for the new \$15,000 school house at Almont has been completed. Sig-

**Victor**

HIS MASTER'S VOICE

## Out to-day New Victor Records for August

Two brilliant interpretations by Paderewski  
Chopin's "Nocturne in F Sharp Major" and "Polonaise Militaire," played as only the world's master pianist can play them.

Victor Red Seal Records 74019 and 74130. Twelve inches. \$1.50 each.

Zimbalist charms with simple negro melody  
An exquisite violin translation of the favorite "Massa's in de Cold, Cold Ground" that brings out all its beauty.

Victor Red Seal Record 64678. Ten-inch. \$1.

Two patriotic numbers by Reinald Werrenrath  
This gifted baritone not only sings splendidly "Flag of My Heart," but gives stirring recitation of "Your Flag and My Flag."

Victor Blue Label Record 45124. Ten-inch. \$1.

Two delightful sentimental songs by Charles Hart  
Four rattling good patriotic song hits  
New records of "Battle Cry of Freedom" and "Hail, Columbia"

35 others including

6 Lively Dance Numbers	2 Excellent Saxophone Sextet Records
2 Beautiful Orchestral Selections	12 Attractive Popular Songs
4 Favorite Concert Songs	2 Charming 'Cello Solos

Hear these new Victor Records today at any Victor dealer's. He will gladly give you a complete descriptive list and play any music you wish to hear.

There are Victors and Victorolas in great variety of styles from \$10 to \$400.

**Victor Talking Machine Co., Camden, N. J.**

Important Notice: Victor Records and Victor Machines are scientifically coordinated and synchronized by our special processes of manufacture, and their use, one with the other, is absolutely essential to a perfect Victor reproduction.

New Victor Records demonstrated at all dealers on the 1st of each month.

# Victrola

"Victrola" is the Registered Trade-mark of the Victor Talking Machine Company designating the products of this Company only.

Warning: The use of the word Victrola upon or in the promotion or sale of any other Talking Machine or Phonograph product is misleading and illegal.

## Mandan News Bureau

**Almontite Here**—Alvin Olson of Almont is in the city today on business.

**Visiting Declining Priest**—Father Clement spent yesterday at the St. Alexius hospital.

**Visit From**—Mrs. J. C. Johnson and family in Bismarck visiting relatives.

**Mrs. Harmon Here**—Mrs. Ernest Harmon of Glenview is in Mandan visiting relative and friends.

**McCadams in Fargo**—"Duck" McCadams went to Fargo yesterday morning on business.

**At Cannonball**—Rev. and Mrs. C. H. Brown, who had been at Cannonball visiting with friends, returned home Saturday afternoon.

**Is Substituting**—Earl Dunbar is substituting as carrier on route No. 2 for Tedeman Rotnem, who is enjoying a two weeks' vacation.

**Here From Canada**—Mrs. Sophus Johnson and children of Canada are in Mandan guests of the former's parents, Mr. and Mrs. H. H. Harmon.

**Returns Home**—S. W. Unkenholz returned home the latter part of the week from the twin cities, where he had been on business for a few days.

**Cannon Banker Here**—H. H. Halenberg, Cannon banker, was in Mandan yesterday afternoon and this morning on a short business mission.

**To Visit in Minneapolis**—Miss Eva Heister will leave tomorrow for Minneapolis where she will visit for a few days at the Bartholomew home.

**Back From Litchville**—Jacob Stroeder returned home this morning from Litchville, where he spent a few days with relatives and friends.

**Larsons Home**—Mr. and Mrs. O. M. Larson returned home yesterday afternoon from an automobile trip to Dickinson and the Killdeer mountains.

**Mrs. Drury Home**—Mrs. Mary Drury returned home yesterday from Livingston and Billings, where she had been for several days visiting with friends.

**Feland Returns**—Theodore Feland, county commissioner, returned to Mandan yesterday from his home at Sina after having spent Sunday with relatives.

**Visiting Relatives**—Mrs. John W. Tobin of Livingston, arrived in the city Sunday and is spending a few days as a guest of Mr. and Mrs. Dennis Tobin of this city.

## "IN A BAD WAY"

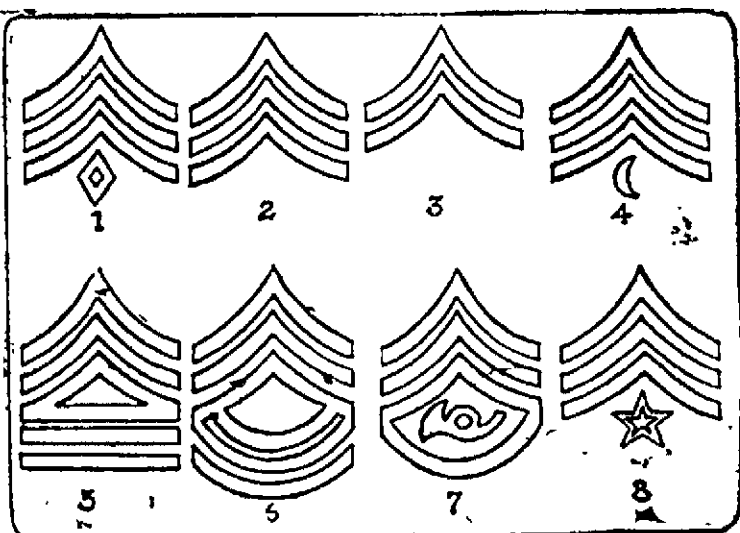

Many a Bismarck Reader Will Feel Grateful for This Information If your back gives out; Becomes lame, weak or aching; If bladder troubles set in; Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys.

Local evidence proves their merit. Mrs. James Alsbury, 911 Sweet St., Bismarck, says: "My back bothered me for several years. At times I was so lame and sore that I could hardly bend and on straightening, sharp pains would dart through my kidneys. At night, my limbs ached so severely that I couldn't sleep well and I was tired when I got up in the morning. I got four boxes of Doan's Kidney Pills at the Lehnart Drug Co., and they entirely rid me of my complaint. I am now in good health."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Alsbury had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## SLEEVES DISTINGUISH NON-COM OFFICERS

American army enlisted men who have attained non-commissioned rank are known by their chevrons. The chevron originated in the dark ages when a property holder indicated by chevrons, or "rattlers," how many houses he owned. Likewise in the army the number of chevrons tells non-commissioned rank. The regimental sergeant-major, highest non-commissioned officer, wears chevrons on both sleeves, just above the elbow.

ward Elde has been given the foreman-ship of the work and has a large force of men as busily engaged doing the preliminary work.

**In Montana**—Misses Gertrude Lund and Hulda Grothwaite are spending a few days in Lambert, Mont., guests of the former's sister, Mrs. E. G. Ufer. Mrs. Ufer had been visiting in Mandan and went to Montana with Misses Estroon and Grothwaite.

**Autoists Return**—Two automobile parties returned home Sunday from trips through the Yellowstone National park. Dr. and Mrs. Altnov and Mr. and Mrs. Sweet made the trip in the former's car. J. H. Newton and family and guest, William

Miller of Philadelphia, returned in the Newton car.

**Starts Fire**—Saturday night about 11 o'clock the large stock barn of Henry Lahren was struck by lightning and as a result the building was burned to the ground. A feed mill, three tons of new hay, five sets of double harness, and a six-year-old Percheron stallion were also lost in the fire. Mr. Lahren stated Monday that the loss was easily \$1,200.

The Lahren farm is located about five miles northwest of Mandan. The barn destroyed was built a short time ago and the dimensions were 30x30 with a large hay loft. He carried \$400 insurance on the barn. There other losses were not insured. There

was no body home at the time of the fire. Mrs. Lahren being away at one

of the neighbors and Mrs. Lahren was at the Slacker home in Mandan.

## — Head Ached Constantly —

Catarrh  
Destroyed  
Smell  
and  
Taste

Frequent  
Nose  
Bleed,  
Could  
Get No  
Relief.

Mr. J. B. Reese, Habnab, Md., writes: "Two years ago I became a sufferer with catarrh, which continued to grow worse and made me miserable. I could scarcely smell at all, and my taste had almost left me. My head ached constantly, and at times had high fever and bleeding at the nose. I was a perfect wreck. I tried several doctors, but derived no relief. I read in one of your little booklets, called 'His Life,' of Peruna being a remedy for catarrh, and procured a bottle at once. After the use of one bottle I felt some better, so I tried the second and the third, and now I am a well man. All praise is due Peruna."

Those who object to liquid medicines can now procure Peruna in tablet form.

## EXAMINATIONS FOR OFFICERS' SECOND CAMP

Major Steedman Looking Over Class of 50 Candidates in Bismarck

**NO DOUBT AS TO QUOTA OF STATE BEING FILLED**

Major R. R. Steedman, examining officer for North Dakota, today began the examination of 50 candidates for the second officers' training camp at Fort Snelling, who have been directed to report here. Examinations will continue in the federal building until Friday evening, when Major Steedman will leave for Dickinson, where candidates will be received Saturday and Sunday. The final examinations for the Fort Snelling camp, which opens Aug. 27, will be held here between Aug. 27 and Aug. 30.

Only candidates and alternates who are accepted will be notified by Major Steedman under a new ruling just issued from the central department. Candidates who are not accepted for immediate attendance will be notified of this fact from the central department headquarters at Chicago. Major Steedman had advised candidates examined at other points that he would notify them of the result, and he wishes it made clear that this notification in the case of candidates who are not accepted will not come from him.

**Will Fill Quota.** Major Steedman is confident that North Dakota's quota of 113 candidates for the second camp will be filled with good material. About 430 applicants will have been examined when the round of the state is completed. Fargo, with 80, presented the largest number of candidates; Minot ranked second with 60, and the Bismarck district will take third place. Dickinson has about 25 candidates to be examined, and Jamestown offered 30 candidates.

## FIFTY MEMBERS OF CO. H. ENTRAIN FOR FORT LINCOLN POST

Last Contingent of Jamestown Guardmen in From Bridge

**Duty**

Jamestown, N. D., Aug. 1.—Fifty members of Jamestown Co. H, First North Dakota Infantry entrained for Bismarck today, where they will join the remainder of the Jamestown company at Fort Lincoln preparatory to leaving with the North Dakota troops for their permanent training camp. The boys spent an enjoyable evening in this city, being entertained with a reception and dance at the army hall by Jamestown people.

## MOB TAKES FRANK LITTLE TO RAILROAD

(Continued from Page One)

membership of the I. W. W. is getting tired of the long lawlessness of the capitalist class and will no longer stand for such action. If you, as governor, cannot uphold the law, we will take same into our own hands. Will you act, or must we?"

In reply, Governor Campbell said he felt sure no deportation would take place with the federal troops stationed in the district, and that he was using his best efforts to protect the rights of all citizens. Concluding, he said:

"I resent your disloyal and unkindly threats in view of my earnest efforts to bring law and order and such forces as will maintain same and further like behavior on your part will be punished to the full extent of my authority."

**HAYWOOD'S TRIBUTE.** Chicago, Aug. 1. Frank Little had been identified with the I. W. W. since 1906. His home was Fresno, Cal. He was 35 years old and single.

Word of his death was received with emotion by W. G. Haywood, secretary of the national organization of the I. W. W.

"Frank Little was an earnest, active advocate of the interests of the working classes," said Mr. Haywood. "I cannot begin to say how deeply I regret his death. He was well known, not only to industrial workers of the world, but to working classes generally throughout the west."

Before becoming identified with the I. W. W. in an official capacity, Little was a miner.

## Terror of I. W. W. Leaves Northwest Mounted Police

Portal, N. D., Aug. 1.—Corporal F. Corby of the royal northwest mounted police, a real hero of the north country, who entered this picturesque service at Dawson in 1904, and has ranged some of the wildest country in the Canadian northwest, has left the force to join the provincial police. Corporal Corby has long been known locally as a terror to the I. W. W.

### Anatomy and Friendship.

"My dear," said the host to his wife as he started to carve the leg of lamb, "can't you give Mrs. Brown anything better than this cold meat?" "Oh," cried Mrs. Brown, "that's all right, so long as it is cold leg and not cold shoulder."—The Christian Herald.

# SERVICE ON EXEMPTION BOARD COMPULSORY; DOCKET REQUIRED ON CASES; RED CROSS DRAFTS

Members Can Be Excused Only for Reasons Assigned by War Department—Ambulance Drivers Not Exempt From Call—Credits on Quotas Only After Men Reach Mobilization Camps—Passports Issued After Candidate Has Been Examined—Record Must Be Kept of Every Act.

Henceforth, according to special instructions wired local exemption boards from the adjutant general's office last night, members will be excused from service on these boards only for the most urgent reasons. By section 6 of the selective service law persons designated to perform exemption board service are as effectively drafted for this duty as are the registrants who are selected for military service, say the orders, and in case of refusal to serve after the governor has passed upon and rejected a request for release, the case is to be reported to the nearest representative of the federal department of justice. These instructions do not apply to members of boards who are to be removed under instructions from the war department.

Local boards are required to keep a docket of every case called, and upon this docket must be noted every action taken in respect of the case.

### Final Credits for Quotas.

No board can receive final credit on its quota for any selected man until word has been received from the military authority at the rendezvous or mobilization camp that the man has been accepted into the military service of the United States. Some men passed by the local board will be exempted or discharged on appeal by the district board, and some will be rejected at mobilization camp. The number of persons passed by local boards who will be discharged by district boards or at mobilization camps is tentatively estimated at 10 per cent of those passed by the local board. Therefore, local boards should continue to call men up for examination until they have apparently filled their quota with 10 per cent additional.

### Must Pass 110 Per Cent.

Local boards have been ordered to call 200 per cent of their quota for examining. By the seventh day after this call is sent out all claims for exemptions and discharges by men called will be filed with the local board. By examining the number and character of these claims and by considering the number of persons rejected physically, the board can roughly estimate the number of men that it will be necessary to call to fill their quotas. Immediately after making this estimate the board should send out a call computed on the experience of the first call. This new call should

be for enough men to complete 110 per cent of the quota.

### Leaving the Country.

The state department issued passports to persons subject to draft only when the application is accompanied by a permit by the provost marshal general to leave the country. Until August 5 applications for permits will continue to be made to this office, but after that date such application shall be made to local boards. If the applicant is held for military service, the district board will refuse the permit for passport unless convinced that the absence will be merely temporary and that the applicant's number is so far down in the list that he could not be included in the present draft. If the applicant for passport appears for examination and is exempted, the war department has no objection to the issuance of a passport. No passports are required by the state department to go to Canada, but persons subject to draft who attempt to cross the line may be subject to delay unless provided by a permit from local boards to go to Canada temporarily, which may be issued for a definite time upon the applicant's furnishing his Canadian address and agreeing to keep his local board informed of his whereabouts.

### Red Cross Not Exempt.

"Service in the Red Cross ambulance companies is not military service within the meaning of the law, and is not a valid claim for exemption or discharge."

"Physical examinations at the request of the registrant and in the discretion of the board may be given before the day set in his call, but this procedure shall not abridge the time prescribed in regulations within which claims of exemption or discharge may be filed."

### Persons Twice Registered.

"Persons registered in two jurisdictions may have one registration canceled, but he is not given authority to choose. There is only one proper registration, and that is the one at his domicile. It is only registrations at other places that can be canceled under section 30. If no move is made to cause such cancellation, the person must answer to the board that first called him."

"There is no provision in the law under which medical students can be exempted or discharged."

"Provost Marshal Crowder."

## BISMARCK LOSES SLOPPY GAME TO NEW ROCKFORD

Grant Knocked Out of Box, With Little Support From Team.

**Mates, Is Story**

New Rockford, N. D., Aug. 1.—Bismarck rallied in the latter part of the game here yesterday, but the locals had too long a lead, and the visitors' four runs in the last three innings availed but little.

Grant, relieved in the seventh inning, had little backing, and it was a mediocre game throughout.

**Tale by Innings.**

# AUDITORIUM To-morrow NIGHT

2 SHOWS: 7:30 and 9:00 P. M.

PRICES: 10c and 20c

### Woman Lawyer B. C.

That modern woman lawyers and even Portia celebrated from the "Merchant of Venice" had their prototypes in ancient days is the evidence to be found on ancient Babylonian tablets now preserved in the British museum. On these tablets it is given as a matter of interest that in the year 550 B. C. a woman appeared in the high court of Babylon and pleaded her own cause without assistance from any man.

See "Womanhood" at the Grand tonight—your last chance.

### Legal Terms.

Title is the right to or ownership of property, especially of land, with or without possession. Abstract of title is a brief and orderly statement of the original grant and subsequent conveyance and incumbrance relating to the title and ownership of real estate. Certificate is an instrument of conveyance under seal. Mortgage is a lien on equity and a conveyance at law.

### The Efficiency Expert.

As a rule, we take it, the efficiency expert is nearly related to the recurring person who goes to Monte Carlo with a mathematically infallible system to break the bank and comes home broke.—Exchange.

### Wife Takes Pastor's Place.

Lexington, Mass.—While Rev. Christopher Walter Collier, pastor of the Hancock Congregational church, is absent in France with the American ambulance field service, his wife will carry on the work of the church. Leave of absence to the clergyman and the appointment of Mrs. Collier as temporary pastor have been voted unanimously by the congregation.

It is the duty of every patriotic citizen to see "Womanhood" at the Grand tonight.

### Fireflies as Ornaments.

The bizarre dictates of fashion, which suggested carrying a monkey, or wearing a lizard or chameleon were anything but esthetic or attractive. At first blush the wearing of an insect seems repulsive, but anyone who has seen beautiful Brazilian or Creole women making use of fireflies, or cucujos, fastening them in little transparent bags of light tulle to their dresses and hair might change his mind and be entranced by the sight of these living jewels glowing in the darkness of scented gardens.

"Womanhood" is the talk of Bismarck. See it at the Grand tonight—your last chance.

### Assurance Doubly Sure.

Even if a woman is economical her husband will go to bed better contented if he finds she hasn't been down town all day.—New York Evening Sun.

Tribune want ads bring results

## MORTON COUNTY BEGINS CUTTING EARLIEST WHEAT

Harvesting Will Be in Progress Across the River by Last of Week

Mandan, N. D., Aug. 1.—The cutting of early wheat crops will be in progress throughout Morton county by the end of this week. Practically all of the winter rye in the county already has been harvested. Supt. J. M. Devine of the state industrial school last week completed cutting winter rye and oats, and Supt. W. A. Peterson of the Great Plains experiment station has his crews in the winter rye and oats plots. Practically every Morton county farmer interviewed has expressed complete satisfaction with the quality of labor offered this year. Prices paid are relatively high, but the farmers feel they are getting their money's worth and to date have not heard even rumblings of I. W. W. disturbances.

## Quarterly Business Meeting at Baptist Church This Evening

The First Baptist church this evening will hold its quarterly business meeting in the church parlors. Early in the evening ladies of the Mission circle will serve ice cream and cake on the church lawn, and the general public is invited to enjoy the refreshments. The business session will convene about 8:30. Reports of various officers and organizations of the church will be heard; a number of new members will be received into the congregation, and all members of the church are especially urged to be present.

## Used Gasoline to Kindle Fire; Body Burned to a Crisp

Pembina, N. D., Aug. 1.—A Galician woman employed as servant in the home of Burt Humphrey was burned to death when a can containing gasoline exploded as she was lighting a fire with it. The woman, with her clothes ablaze, dashed from the house, and ran across the fields. When she finally fell all of her clothing had been burned from her and her flesh was crisp. She lived only a few hours.

## Special Dress Goods Sale

We are now putting on a special sale of fall fabrics of dress goods, consisting of Chambrays, Dress Gingham and Outings.

The cost of the raw material from which these goods are made have increased in price in two years just 400 per cent. (Two years ago raw cotton was a drug at 10c per pound. Last week the new crop began to move at 40c.)

The manufacturing cost of the goods we are now offering will be at least double what it was six months ago before we can receive another shipment.

But we have between one hundred and two hundred pieces which we are offering at the following bargains.

24 inch Dress Gingham, stripes, checks and plaids, per yard..... 15c

26 inch, assorted colors, stripes and plaids, per yard..... 15c

Solid color Chambray, 26 to 27 inches wide, blue, pink and tan, per yard..... 15c

Superior Dress Gingham in stripes and plaids, per yard..... 15c

Fancy Woven Dress Plaid fast colors, extra quality, per yard..... 15 and 20c

Beautiful Outing Flannels good assortment, stripes, checks and plaids, per yard..... 15c

## AMERICAN MERMAIDS WILL GO AFTER FANNY DURACK'S TITLE IN HAWAII THIS FALL

DOROTHY BURNS

CLAIRE GALLIGAN

BY PAUL PURMAN

Miss Fanny Durack, undisputed all round woman swimming champion of the world will face the hardest up position she has ever been called on to meet at the International water carnival at Honolulu in September. For this event America will send her best talent to try to wrest from the Australian marvel swimming honors she has held for four years in all distances from 70 yards to a mile.

Miss Durack is perhaps the most versatile woman champion of all time. Her records in the shortest sprints to distances well over a mile have never been seriously challenged and swimming is a great deal like running, different styles being needed for different distances.

Miss Olga Dorfner of Philadelphia perhaps has the best chance to beat the Australian water witch in the shortest distances. She has negotiated the 50-yard sprint in 29 seconds, tying Miss Durack's world record for the distance. She also holds the American record for 75 and 100-yard sprints, the latter in 1:08.35, a trifle more than two seconds over Miss Durack's record.

Miss Dorothy Burns of Los Angeles, an excellent middle distance swimmer, may be Miss Durack's chief rival in the 200, 220 and 300-yard swims and Miss Claire Galligan of New Rochelle, N. Y. will challenge Miss Durack's speed over the 440 and 880-yard and mile distances.

Miss Galligan has never come close to equalling Miss Durack's records over these distances, but she is young and is improving every day. Her slow trudgeon crawl stroke makes her the most formidable contender over the longest distances. Miss Frances Cowles of San Francisco will also be entered in several of the events. This mermaid has been creating a sensation in recent

**SPORT CHATTER**  
Tom McMahon has trimmed Carl Morris. Making Morris the leading candidate for the heavyweight title. A New York paper says Jack Johnson laid down to Jess Willard. Well who cares?

The Ace won a trotting race in 7:13.13

meets on the coast, especially over the short routes.

But a glance over Miss Durack's records show that the American mermaids have a big job on their hands. Her record for 50 yards has been tied by Miss Dorfner at 29 seconds; she has a record of 49.45 seconds for 75 yards, a second faster than the best American record. At 100 yards her record of 1:06.18 is 3.5 seconds faster than Miss Dorfner's fastest century. Her record of 2:37 for the 220 is 37 seconds faster than the best American mark. She has covered the quarter mile in 6:17; Miss Galligan's best time for the half mile and mile is 12:52 and 26:08. Miss Galligan has never done better than 15:15 and 31:18.

But Miss Durack's records were made in 1913 and 1914, in

Ohio recently. Aces usually have won in the games we've been in if there was enough of them.

That national cricket tournament at Philadelphia is causing us to lose our sleep. We used to sleep eight hours at night, now we sleep eight hours a day.

The Browns made seven errors in a game the other day. Fielder Jones would have been a pleasant guy to talk to after the game.

Maybe Heine Zimmerman won't recognize New York when he gets back and finds the horse car have been discontinued.

**BIDS FOR BOILER.**

Sealed bids for furnishing and installing one 42x12 Return Tubular Steam Boiler containing 31 3/4 inch tubes 1 1/2 ft long bid to include removal of old boiler from building will be received by the Clerk of Board of Education until August 15. Special notice on file with clerk. Right reserved to reject any or all bids. By order of Board of Education. RICHARD PENWARRDEN, Clerk.

## Can Reds Win? Maybe; But It Will Take Super-Baseball and All Breaks of Game

What are the chances of the Reds? This is the problem confronting the baseball world as the clubs are rounding the turn for the final drive on the stretch with the Giants some eight games out in front.

Let us look into the chances of slatty's outfit to play for the big money this October.

Eight games at this point is a considerable margin, especially when the clubs referred to are playing about the same kind of baseball.

It means that the club eight games behind, must not only win every time the other club wins, but that it must play enough better ball to win eight games while the other club is losing eight.

The Giants have been playing 667 ball this season. So far there has been nothing to indicate they will drop it. The Giants continue playing 667 ball the Reds face the hopeless task of playing 850 ball to catch them.

But there are two or three conditions which favor the Reds in the final drive.

They have about 60 games to play, while the Giants must play 75 including a number of double headers.

The Reds have some 35 games on the home grounds while the Giants only have 25, not counting double bills.

On their last trip the Reds played 700 baseball, while the Giants were playing 667 baseball at the Polo grounds.

The Reds can play better baseball at home than on the road and the Giants, but a slump on the road the eight game lead may be lessened considerably. That of course is a question only the games can decide.

Then in the matter of double headers. Can the Giant pitchers stand a strain of a long string of double bills?

The New York pitching staff is the notoriously weak spot on the club. Schupp is scarcely more than a one day a week pitcher. Whether he can keep up his high winning percentage

if called upon to work often is a question.

Anderson perhaps can work often er than any other pitcher on the Giants' staff with the possible exception of Joe Tesreau. Peritt, Salles and Benton can scarcely be called iron men.

The strain of these double headers may work against McGraw, getting all he should from his pitchers.

New York has the hardest schedule of the two for the next few weeks. McGraw must meet the Reds, the Cardinals and the Cubs, all dangerous clubs in addition to the Pirates. The Reds have to meet the Giants and Phillies of the stronger clubs and Boston and Brooklyn.

Everything considered the Giants have decidedly the worst breaks coming, but an eight game lead is an eight game lead and it will take super-baseball to overcome it.

**Law of Booty.**

The law of booty governing the Is. Pirates is 20 per cent. Numbers 31:26-47. Booty consisted of captives of both sexes, cattle and whatever a captured city might contain, especially metallic treasures.

**NOTICE OF SPECIAL MEETING OF THE STOCKHOLDERS OF THE MISSOURI VALLEY MOTOR COMPANY.**

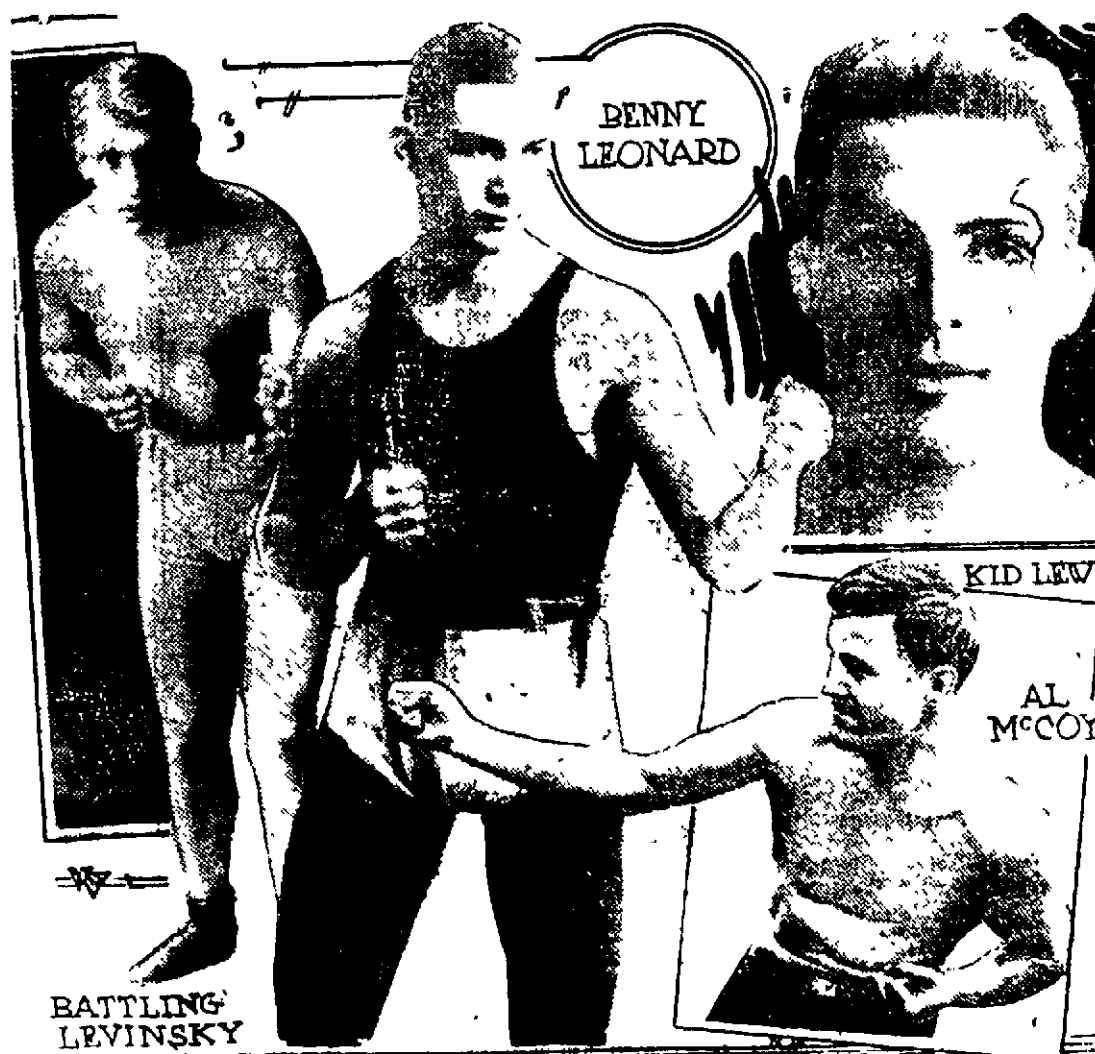

A special meeting of the stockholders of the Missouri Valley Motor company is hereby called, by the directors of the company, to be held at the principal office of the company in the city of Bismarck, North Dakota, at 7:30 o'clock p. m. on Saturday, the 17th day of September, 1917.

The object of said meeting is, by the stockholders consent, to authorize the Board of Directors to increase the capital stock of the company to one hundred thousand (\$100,000) dollars.

Dated at Bismarck, N. D., July 14, 1917.

JOS. P. HESS, Secretary  
71427-18152229 9-7-12

## PUGILISTIC RANKS INVADED BY HEBREWS WHO NOW HOLD FOUR OF SEVEN WORLD CHAMPIONSHIPS

BENNY LEONARD

KID LEWIS

AL MCCOY

BATTLING LEVINSKY

BY PAUL PURMAN.

A glance over the list of our boxing champions reveals the rather unusual fact that of seven divisions in America four of the champions are Hebrews.

A list of their real names probably would not be recognized even by the most ardent boxing fan. Benjamin Leiner, Gershom Mendeloff, Al Rudolph and Battling Levinsky. Former of course is Leonard, Mendeloff is better known as Kid Lewis and Rudolph as Al McCoy.

They hold the lightweight, welter, middleweight and light heavyweight crowns between them. All of which reminds us that some of our greatest fighters have been

Hebrew. Benny Leonard, who there was a ver a gamier or greater fighter of his weight is a Hebrew.

The Axtell in his prime the most beautiful of feathers, is Jewish. He includes Leitch Cross, Charles Al McCoy, Kid Herman and the featherweight, Rudy Lewis and many others.

With the exception of the Irish no other race has so many good light weight boxers.

Leitch is willing to risk his crown now and then.

McCoy is a great fighter, shifty, clever and hard hitting.

Levin's made a name for himself as a man when he fought two or three times a week against the best in his class. He won his belt from Jack Brien in itself no easy task.

Al McCoy generally recognized as middleweight champion on account of his one round victory over George Chip two or three years ago managed to hang on to the title because no middleweight has been found a de to knock him out in 10 rounds and Al won't play unless it's a 10 round no decision fight.

Atlanta, Ga., July 31—Ladies and Gentlemen, meet the champion baseball fan of America and his carrier pigeons by which he relays the scores through the air.

The champion fan is two—Mr. and Mrs. John H. Legien, of Atlanta, Ga. Until two years ago Mr. and Mrs. Legien never missed a game. They could tell you the batting average of men in majors and minors, they talked box scores instead of neighborhood gossip at the breakfast table, and on holidays went to the ball park instead of the picnic.

Then came tragedy—Mrs. Legien became ill. On recovery she found she would be practically an invalid for life. No more baseball games for the wife; husband went alone—and she had to wait until hours afterward to find out who won, for the Legiens live 10 miles from the park.

Such a pathetic state of affairs could not endure. At the beginning of the present season, Legien trained a flock of carrier pigeons. And now, every afternoon at the game, this is what you see.

John H. Legien sitting in the grand stand with a box of nine homers. At the end of every inning—unless the game goes 10 innings, in which case he holds pigeon number nine—he writes the score on a slip of paper, sticks it beneath the leg-ring of the bird, and lets it fly. High above the diamond the homer circles and then—bang!—he is off on a dead line to the south. Four minutes later, Mrs. Legien, resting on her front porch, takes the fluttering bird from her shoulder and puts it in its box.

But first she extracts that bit of paper from the leg-ring.

"Hurrah," she whispers. "Two to one in the seventh!"

**Nature Put to Work.**  
In constructing a series of small bridges over the streams which intersect many of the roads of Sumatra, a rather unusual course was followed. The builders used timber strainers and made abutments of piles of burlap bags filled with cement and sand. Shortly after the bags had been put in place heavy soaking rains converted the whole into a mass of solid concrete.

**Needed Help.**  
John was watching the ants busily engaged on their hill. Suddenly he turned to his father and asked "Say, pa, isn't there any uncles to help the ants?"

**MONOTONY**  
By GEORGE MATTHEW ADAMS.  
Do you go into your days facing a dreaded Monotony—the feeling, "Oh, I will be glad when this day is over?" All right—you are gradually succumbing to the relentless hammering, robbing, killing power that Monotony hands out to every man who does not determine that for him there shall be no Monotony to Work and to Life.  
Where interest is, there is no Monotony.  
You are only one of millions who are unable to come and go at will. There must be System and Organization and Regulation to all the affairs of life, be these affairs small or great. But just the moment that interest lags, in any one of them, Monotony enters to dominate and control. Get grounded into your consciousness that—  
Where interest is, there is no Monotony.  
If you can't create interest, if you can't muster it to save you, then hunt out work that will render to you interest sufficient to keep you out of the clutches of Monotony. Robust health counts against Monotony. High ideals, courage, willingness and determination to do and be, count against Monotony. Convictions, resolutely created, and followed through to results, count against Monotony.  
Where interest is, there is no Monotony.  
Tribune want ads bring results.

The Outbursts of Everett True  
By Condo

MARION CLEVELAND TO WED

Miss Marion Cleveland, youngest daughter of the late President Cleveland, is engaged to marry William Stanley Dell of New York city. The announcement was made by Mrs. Thomas J. Preston, Jr., formerly Mrs. Grover Cleveland. The date of the wedding has not been set.  
Miss Cleveland made her debut in society in 1914. For the past two years she has been a student in Teachers' college, Columbia university. Mrs. Preston's eldest daughter, Esther Cleveland, is engaged in relief work in Paris, for soldiers blinded in battle.  
Mr. Dell only recently returned from service abroad with the American ambulance in France.

Jack Barry.

Harry Frazee, one of the owners of the Boston Americans, thinks Boston is due to repeat in the American League race and also in the world's series.  
"I don't see why we should worry," Frazee said, "Jack Barry is one of the smartest men in the game. We believe Sox will repeat."

**TO STOP VAST DECAY OF SWEET POTATOES**  
Atlanta, Ga.—Movements have been started in several agricultural communities of the South to care for sweet potatoes, so as to save them from decay during winter storage. The United States department of agriculture estimates that 10,000,000 bushels of sweet potatoes are lost annually through improper curing and storing.

**NEW AUTO FUEL TRIED WITH GOOD RESULTS**  
Superior, Wis.—A solution of the auto fuel problem is expected in a new manifold for automobiles that has been invented by Dr. J. G. Barnsdale of this city. Trial tests show that the invention allows a car ten miles more on a gallon of the cheaper fuel than it does on gasoline. The manifold permits mixtures of gasoline and kerosene to be used by cutting the kerosene until heat has vaporized the fluid.  
An Arizona scientist hopes to fix the time of the cliff dwellers by comparing the age rings in tree trunks still standing in their homes with the rings on the oldest now living.

**Why Many Fail in Desire to Fight for Uncle Sam.**  
Why so many men are rejected for military service is partially explained by one week's report of a recruiting officer at Indianapolis, compiled after a drive for recruits in the United States Marine corps.  
Out of 192 applications for enlistment during the week only 24 were accepted. Others were rejected for the following causes: Under age, 31; underweight, 80; defective vision, 20; defective hearing, 4; flat feet, 16. Sixty-one others were rejected as "undesirable" through failure to meet the exacting mental, moral, and physical requirements.  
The standard of the "soldiers of the sea" is very high. It is said that at present 12 per cent is about the average of acceptances throughout the country.

**IS LOCKED IN REFRIGERATOR**  
Facing Death in a Sound-Proof Box is Thrilling Experience of Kansas Butcher.  
Goodland, Kan.—E. W. Sullivan, the butcher, has just had an experience that gave him some idea of what it means to be entombed with little or no prospect of being rescued.  
He entered his shop, locking the door after him, and then entered the big refrigerator. The door closed and the snap lock shut him up in a temperature of about 32 degrees. The big ice box is straight and sound-proof, so that it was impossible to make enough noise to attract persons passing on the street.  
A large hook was used to make a hole in the door, but without success, and it was only when Sullivan discovered a cleaver in one corner of the refrigerator that hope was renewed. A hole was cut in the door near the lock and the butcher secured release after an hour's work.

## LAST RITES FOR DROWNING VICTIM THIS AFTERNOON

Funeral Services Held at First  
Presbyterian Church for C.  
H. Kundert

Funeral services for the late C. H. Kundert, victim of Sunday's drowning accident at Apple creek, were held at the First Presbyterian church at 2:30 this afternoon. Rev. H. C. Postlethwaite, the pastor officiating and interment was made in St. Mary's cemetery.

Few young men in Bismarck had more friends than Mr. Kundert and the church was filled this afternoon by the scores who desired to pay a fine tribute to his memory. The accident, through which a young life so rich in promise has been snuffed out, was one of the saddest which ever has occurred in Bismarck.

## NEW ENGLAND EVENS SCORE BY TAKING TWO FROM HALLIDAY BOYS

Teams Now Tied for Honors,  
Probable Rubber Game Will  
Be Played

New England, N. D., Aug. 1.—New England evened things up by winning two games played here Saturday and Sunday. Both games resulted in a score of 7 to 6 in favor of New England, and were mighty interesting contests. The batteries in the Saturday game were Houd and Connolly for New England and Gendrier and Ellis for Halliday. In the second game the batteries were Northrup and Dougherty for New England and Farmer and Ellis for Halliday.

The teams are now even on honors, each having two games to their credit. A rubber game may be played on neutral grounds in the near future.

## BISMARCK AND NEW ROCKFORD TO PLAY FOR JIM RED CROSS

Two Teams Will Put on Barn-  
storming Exhibition at  
Jamestown Next

Jamestown, N. D., Aug. 1.—Jamestown baseball fans will have some real entertainment next week when the fast New Rockford and Bismarck aggregations come here for a three-game series to be played at the fair grounds (beginning Monday) for the benefit of the Jamestown Red Cross chapter. Ten per cent of the proceeds of the series will be given to the local Red Cross society.

The two aggregations will play an opener here Monday evening at 8:15 o'clock, playing a double bill Tuesday afternoon and evening.

**Not Culture.**  
Abstention from work and waste of money is not culture. Even a hobo refrains from toll and squanders what he panhandles.—Houston Post.

## MENOKEN

Wm. Baker returned from St. Paul Monday where he went with stock. Lyman Harris just closed a real estate deal with Lawrence Agnew by which he takes possession of the Harris bungalow, Nov. 1. The Harris expect to move to coast about that time.

J. A. Osborn of Genoa, Neb., who owns two sections north of town arrived last week to look after his crop interests.

C. J. Roberts who has been operator at this station for several years left for Sterling, N. D., Thursday, where he will have a similar position and be near his land interests.

Lee Dralle, is driving a new Dodge car which he purchased Friday from the Missouri Valley Motor Co.

Mrs. Lulu E. Harris of Bismarck was a week end visitor at Harrison. The Christian Endeavor social at hall, Friday night, was a grand success socially and financially.

Mr. and Mrs. V. M. Craven and daughter, Doris, motored to Bismarck Saturday with C. D. King.

Fred Nelson harvested his rye crop last week.

Sam Hood was transacting business at Capitol City Wednesday.

Mrs. A. T. Welch returned from St. Paul, Sunday on No. 3 where she has been for the past four weeks visiting friends.

Rev. Stewart of Stewartdale has organized a music class here.

## Exclusive Pictures of Damaged Liners

Damage done to engines of interned German liners by their crews, to make the ships useless to the United States. Photographs used by courtesy of the American Machinist, show, top, left, damage done to the cylinder and steam chest of the Neckar, top right, steam pipe and chest of the Bulgaria's port engine blown out, and bottom, damage done to the low pressure cylinder of the Rhein's starboard engine.

## JULY, 1917, NOT SO UNFAVORABLE AS WAS JULY, 1910

The weather during July, 1917, while not so unfavorable as that of the same month in 1910, will be remembered because of the few stormy periods and the intense heat. The mean temperature for the month was 73 degrees, or 3 degrees above the normal. During the past 43 years there have been but three warmer Julys (76 degrees in 1886, 74 degrees in 1894, and 75 degrees in 1916). The highest temperature during the month was 107 degrees on the 28th, equaling the previous high record made on July 17, 1911. The lowest temperature was 44 degrees on the 1st. The greatest daily range (difference between the highest and lowest temperature) was 49 degrees on the 23rd; the least was 18 on the 1st and other dates.

The precipitation total was 1.50 inches, or 64 of an inch below the normal. During the past 43 years there have been 16 Julys with less precipitation than during the month just ended. The greatest amount of precipitation recorded in any 24 consecutive hours was 42 of an inch on the 8th-9th. The number of days with 0.1 of an inch or more of rainfall was 12. Nearly all of the precipitation occurred as local showers, the amounts in each instance being small. There were 15 clear days, 13 partly cloudy days and but one cloudy day. The prevailing direction of the wind was from the northwest. The total wind movement was 7,488 miles, or an average hourly velocity of 10.1 miles. The highest wind velocity was at the rate of 36 miles per hour from the southwest on the 28th.

**TOO GOOD TO MISS.**  
SAY MOVIE CRITICS

Commencing tomorrow the auditorium will present famous Mary Pickford in her new photoplay produced by her own company and released by Artcraft, "The Pride of the Clan." Every Scotchman in the country halls with delight the news that "Little Mary" has selected the role of "Margaret MacTavish" for her next screen impersonation. As for next time Caldonians have hoped to see the most popular girl in the world characterize the charming lass of heather and that she will forever immortalize the typical winsomeness of Scotland's fair daughters with characteristic effectiveness is readily expected. However the wonderful heart appeal as well as dramatic finesse displayed in "The Pride of the Clan" makes it an offering that will prove of universal appeal. During her long and brilliant career on the screen "Little Mary" has portrayed characters of a number of different

## Brotherly Band From Harvey Claims Unique Fraternal Distinction

Seven Sets of Brothers Constitute Half Membership of Second  
Regiment's Famous Musical Organization  
Now Quartered Here

The distinction of being the most brotherly band in the national guard service probably can be claimed by the Second regiment band of Harvey, which arrived in Bismarck last evening to make its headquarters at the Hotel Van Horn until the regiment is called into active service.

Seven Sets of Brothers  
Seven families furnished half of the 28 members of the Harvey organization in seven sets of brothers, as follows: Harold and Myron Bachman; Otto and Louis Bortosh; Philip and Joseph Glaeser; K. and F. Karden; Emil and Frank Resovi; R. and F. Bruce and S. and C. Boese. The Bruce brothers, from Leeds, enjoy the further distinction of being among the few Indian musicians in National guard service.

The 14 members of the Second regimental band who are not brothers are: James Son, M. Wallin, W. Zuber, Peter Guenther, E. Pospishil, C. Lilly, J. O'Brien, Joe Ronning, R. Stewart, E. Vinrod, I. C. Hopelevitz, Ray Boyd, Inez Armbrun, and Earl Pierce. There is represented in the band every civilized race on the globe and a numerous sprinkling of Scotch, states Mine Host McGills of the Van Horn.

nationalities, her recent photoplay, "Less Than the Dust" having met with record-breaking success throughout the entire country. It is a story way from the banks of the Ganges to the wind blown fields of Scotch heather, but it is a trip that Miss Pickford has taken in the interval between "Less Than the Dust" and "The Pride of the Clan," a story of the northwest coast of Scotland.

**BAD STOMACHS—**  
THE PENALTY

Stomach sufferers should take warning. Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto

**All Musicians**

Every member is a competent musician. The old Harvey band forms the nucleus of the organization, and about half of the bandsmen are from Harvey. The remainder are recruited from the Harvey vicinity, with the exception of two, who are from Fargo. The regimental band, which forms a portion of the supply company, under Capt. H. T. Murphy of Bismarck, was recruited to full strength in two days, from July 2 to July 5. Harold Bachman, the leader, is recognized as one of North Dakota's foremost directors.

Upon their arrival in the city last evening the boys gave an impromptu concert of six numbers in front of the Hotel Van Horn which was greatly appreciated by a crowd which promptly gathered. This evening at 8 the band will play during the dinner hour in front of the Van Horn hotel and at 7:30 they will play in the court house square. Big audiences are assured. The bandsmen are very comfortably quartered at the hotel, and Bismarck council, Knights of Columbus, has kindly donated the use of its large hall in the Hinckley building for rehearsals.

Intoxication, Yellow Jaundice, Appendicitis, and other dangerous ailments, are some of the penalties. Most Stomach, Liver and Intestinal Troubles are quickly overcome with Mayr's Wonderful Remedy. This favorite prescription has restored millions of people. Let one dose of Mayr's Wonderful Remedy prove today that it will help you. For sale by Lenhart Drug Co.

**Boost for Photography.**

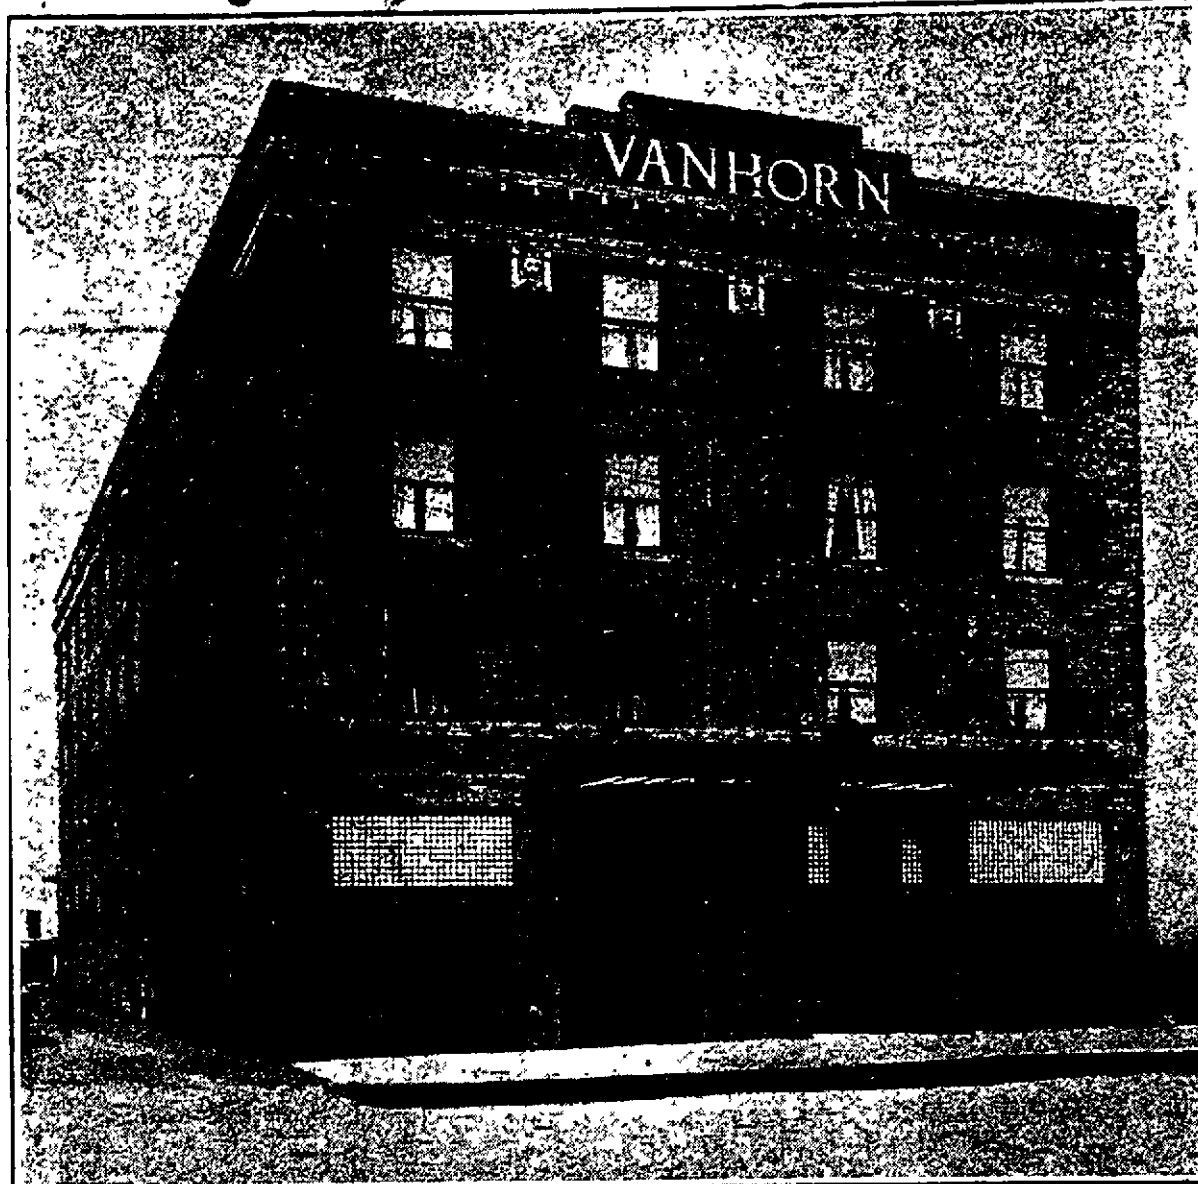

The inventor of a new rapid print machine for photographers says 10,000 prints can be made with it from negatives in a day.

## MOVING BAGGAGE OF INTERNED GERMANS

(TYPE OF ENGINE AND CARS USED IN NAVY YARD.

The photograph shows two navy-yard flatcars drawn by a peculiar short switch engine at the League Island navy yard, Philadelphia, loaded with the baggage of the interned German sailors of the raiders Prinz Eitel Friedrich and Kronprinz Wilhelm, who had been started on their journey to the forts in Georgia where they are now interned. The cars were guarded by United States marines.

## VAN HORN HOTEL Headquarters For North Dakota's 2nd Infantry Band Don't Miss Their Concert In Front of the Hotel To-night.

## Bull Snake Wise To Bone Dryness Of North Dakota

Van Hook, N. D., Aug. 1.—With no cure for snake bites supposed to exist on the reservation, there was consternation in camp when Ingvold Erickson drove into town with his sliver covered with foam and told of a terrific struggle with a six-foot bull snake which almost squeezed him to death before he succeeded in exterminating the reptile.

## SIX DEATHS FROM HEAT IN EAST

Washington, Aug. 1.—Intense heat continued today over most of the eastern part of the country. New York and Philadelphia reported six deaths, directly or indirectly due to heat.

Last chance tonight to see "Womanhood" at the Grand.

## Workmen Save Babe From Burning Home

Desart N. D., Aug. 1.—Carpenters working near by broke in the windows and rescued Mrs. L. G. Hedin's baby from a bed room in the second floor of her home, where the youngster was found sound asleep. The house, with all its contents, including a large sum of money which had been stored in a chest for safety, was destroyed.

Try a Tribune want ad for results.

When you take the "folks" out for a spin you are responsible for their safety—you and your car. Every part must be in perfect condition. A single loose wheel may cause a serious accident by collapsing at a dangerous place.

## SPOKTITE Swells Wood

**Tightens Loose Wheels**

A small quantity of Spoktite squirted into the cracks caused by the shrinkage of the wood will tighten your wheels like new. It will swell the wood to its original tightness—and keep it there. It will stop the creaking, the rattling and the danger of collapse.

## Better, Cheaper, Quicker Than Old Way

The old or mechanical way is to reduce the rim to fit the shrunken wheel. But this does not allow for expansion of the wood in wet weather. And it not only costs as high as \$2.50 per wheel but also keeps your vehicle idle for a half day or longer and prevents the perfect fit of the tire.

Spoktite will tighten your wheels at an average cost of 25¢ each. It swells the shrunken wood to fit the steel rim and keeps the wheel from shrinking again, or from swelling in damp weather. And the whole job of tightening four wheels can be done by anyone in an hour.

Tightens Wheels of Carriages and Wagons as Well as of Autos

Great for "Body Squawks"

Spoktite is put up in a handy spout can so that it may be squirted into the cracks without taking the wheels off or apart. It is not a glue but a liquid compound that goes right into the wood and swells it to normal size and tightness.

Thousands of owners of automobiles and other vehicles are using it to tighten their wheels. And not one case of failure has yet been found. Instead, we have letters from many telling us how well pleased they are with the results and savings.

## Don't Delay—See Your Dealer Today

Garages, auto supply and hardware stores sell Spoktite. Don't go by, but go buy—now—today—before the possible accident. A wheel size can contain enough for four wheels and costs only

a dollar—cheap protection against accidents. If your dealers have no Spoktite, write direct to our factory and we will see that you are promptly supplied.

Branches at Boston and New York City

## How One Dollar Did the Work of Ten or More

Mr. A. I. Halverson, hauling contractor of Modesto, California, tells how Spoktite saved him more. The wheels on my... were in very bad shape. I either had to take them to the blacksmith shop and have them reset, costing \$2.50 apiece, or buy new ones. One application of Spoktite fixed them as good as new.
